

## TECHNICAL SKILLS

---

- **Programming Languages:** HTML, CSS, JavaScript, Python
- **Operating Systems:**
- **Database:**
- **Software:**
- **Framework:** Bootstrap

## PROJECT EXPERIENCE

---

### FreeCodeCamp

#### *Responsive Web Design Certification*

June 2020

- Achieved Responsive Web Design Certification from FreeCodeCamp.
- Implemented best practices for accessibility and responsive design, including a variety of web projects, such as a cafe menu, registration form, and personal portfolio.

### FreeCodeCamp

#### *JavaScript Algorithm and Data Structure Certification*

June 2020

- Attained JavaScript Algorithm and Data Structure Certification, demonstrating proficiency in Object-Oriented Programming and Functional Programming.
- Mastered fundamental JavaScript concepts, including variables, arrays, objects, loops, and functions through the certification program.

### Bank Account of Object-oriented programming (OOP)

July 2020

- Designed and developed a Python and Bootstrap-powered OOP bank account system with a comprehensive suite of 20+ financial management features.
- Created an intuitive user interface using Bootstrap, allowing users to perform tasks like account management, fund transactions.
- Applied OOP principles to ensure modular and maintainable code, enabling future scalability and enhancements.

### Personal Portfolio Website

July 2020

- Engineered a personal website from scratch, employing HTML, CSS, and JavaScript.
- Developed a personal website as a platform to showcase my portfolio of other projects.
- Established a personal website as a centralized hub to display 10+ diverse project works.
- `file:///Users/hanishanisah/Desktop/Code%20Projects%20/First%20project%20everrrrr%20(HTML%20CSS%20JS)/Portfolio%20/index.html`

### Ponyo code x Account

July 2020

- I established a Twitter account to regularly update my coding skills, concurrently tweeting in Japanese to enhance my language proficiency as part of my resume as a software engineer.
- I regularly interact with industry professionals and peers on Twitter to enrich my coding knowledge, benefiting my software engineering resume.
